

HX02 SERIES
130 - 140HP

HX02

**WHEN YOU THOUGHT IT
COULDN'T GET ANY BETTER...**

HX1302 | HX1402

POWER, EFFICIENCY, TECHNOLOGY, COMFORT AND VERSATILITY

Introducing the HX 1402 and HX 1302, the epitome of modern agricultural excellence. With a suite of cutting-edge features, these tractors are designed to elevate your farming experience to unprecedented levels of comfort, efficiency, and precision.

Illuminate your workday with the advanced LED light package, offering unparalleled visibility in any condition, whether it's the darkest night or the brightest day. Bid farewell to discomfort with the cab suspension system, engineered to absorb shocks and vibrations, ensuring a smooth and comfortable ride even over the roughest terrain.

Unlock unparalleled versatility with the hydraulic top link, allowing effortless adjustment for precise control of implements, empowering you to tackle any task with ease and efficiency. Simplify your operations with Easy Stop technology, which streamlines navigation and enhances safety with intuitive controls, making every maneuver a breeze.

The HX 1402 comes fully equipped with all the extras, while the HX 1302 boasts the advanced LED light package, ensuring that no matter which model you choose, you'll experience the pinnacle of tractor innovation and performance.

ENGINE

Built with a 3.8L 4 cylinder diesel engine at either 130hp or 140hp, the HX achieves optimum engine performance, thereby increasing work productivity.

POWERSHIFT

A simple button operation on the side speed lever and armrest gives you a 32x32 transmission with an 8-speed Powershift in 4 ranges.

LOADER JOYSTICK

The multi-functional loader joystick is built with 3rd service and Powershift buttons, simplifying loader working conditions for the user.

MULTI-FUNCTIONAL ARMREST

The multi-functional electronic armrest features numerous functions, such as throttle engagement, 3-point linkage lift and lower, Powershift and Auto Powershift mode.

SUN ROOF

A transparent sunroof inside the cabin ensures an upward clear vision when using the loader, improving ease of operation and safety.

STEERING WHEEL

Smooth handling thanks to the steering wheel angle/height adjustment setting creates an optimal driving position, improving workability and comfort.

3 POINT LINKAGE

The electronic controlled 3-point linkage system boasts a 4852kg lifting capacity, allowing for the installation of multiple working implements.

HYDRAULIC REMOTES

Changing or removing implements is light work on the HX, thanks to the four external rear hydraulic ports and one-handed quick couplers. Flow at the remotes is 118 L/min.

LOAD SENSING

Load Sensing provides optimal hydraulic pressure and flow rate for load sensing operations. This results in automatically neutralising valves in the event of high loads during operation.

EXTERNAL CONTROLS

The addition of rear fender remote and PTO switches increases the convenience of both the removal and attachment of external implements.

LIMITED SLIP DIFF

The use of a LSD front axle prevents the occurrence of slippage due to the load difference of the front wheels. This creates traction, greatly aiding manoeuvrability in any conditions.

TYRES

The use of radial tyres allows for a comfortable drive with low vibration. A strong friction force means towing work is a breeze for the driver.

LED LIGHT PACKAGE

The addition of a LED light package is a significant upgrade that enhances visibility and safety during operation, especially in low-light conditions.

LED lights are known for their brightness and energy efficiency, providing a clear and well-lit working environment for the operator. The lights are strategically placed around the tractor, ensuring comprehensive coverage.

HX1402

LED LIGHT PACKAGE

The LED light package in the HX02 provides bright and energy-efficient illumination, ensuring excellent visibility for safe operation in low-light conditions.

CAB SUSPENSION

The cab suspension system on the HX1402 helps absorb shocks and vibrations, providing a smoother and more comfortable ride for the operator.

HYDRAULIC TOP LINK

The addition of hydraulic top link allows for convenient and precise adjustment of implements such as rear-mounted blades or mowers, improving efficiency and ease of operation.

EASY STOP

Easy Stop refers to a feature that enables quick and smooth stopping of the vehicle, enhancing safety and control during operation.

REAR WHEEL WEIGHTS

Rear wheel weights in the HX1402 help improve traction and stability, especially when working with heavy implements or in challenging terrain conditions.

SPECIFICATIONS

MODEL	HX1302 CAB	HX1402 CAB
ENGINE		
Model	4J243TI-TP2A	
Type	Daedong	
Engine Gross HP	130	140
PTO HP @2200RPM	109	120
Displacement cc	3833	
Rated Revolution rpm	2200	
Fuel Tank Capacity L	230	
DRIVE TRAIN		
Shuttle Type	Power Shuttle	
Main Shift	Powershift	
Speeds	32x32	
Hi-Low Range	Standard	
Hi-Creep Range	Standard	
Main Clutch	Wet Disc Clutch	
Brake	Wet Disc Type	
Differential Lock	Rear Standard	
PTO Type	Independent	
Rear PTO rpm	540/750/1000	
4WD Type	Hydraulic	
HYDRAULIC SYSTEM		
3 Point Lift Control Type	Electronic	
Total Hydraulic Flow L/min	165.3	
Implement Pump L/min	118	
Power Steering Pump L/min	47.3	
3-Point Hitch	Category II	
Maximum Lifting Capacity kg	4852	
Number of Remote Valves	4 (1x Float/Detent - 3x Spring Return)	
Joystick Valve	Standard	
Steering	Hydrostatic Power Steering	
TYRE SIZE		
Front Radial	420/70R28	
Rear Radial	520/70R38	
TRAVELLING SPEEDS		
Forward km/h	0.38 - 40.48	
Reverse km/h	0.37 - 40.20	
DIMENSIONS		
Overall Length (includes 3-pt hitch) mm	4518	
Overall Width (minimum tread) mm	2267	
Overall Height (from top of cab) mm	3011	
Wheel Base mm	2600	
Min Ground Clearance mm	496	
Tread	Front (AG.) mm	1854
	Rear (AG.) mm	1800
Min. Turning Radius (w/ brake) mm	4200	
Weight with Cab and Tyres kg	4853	

STANDARD EQUIPMENT

- Instructor seat
- Speed gauge
- PTO cruise
- Parking alarm
- Fridge and heating cabinet
- Drink holder
- Bluetooth radio
- A/C and heating
- Front fenders
- Working lights
- Sun roof
- Front and rear wipers
